

## New facility for Scantago A/S and Safe Sterilization ApS

We have initiated the engineering of our new headquarter.

The facility is designed by Constructa A/S, and engineering is also carried out by Constructa A/S. The project will be sent out for tender in November 2020, and construction is expected to begin in February 2021 with expected completion by the end of 2021

PPT Ejendom ApS establish the facility on behalf of Scantago A/S and Safe Sterilization ApS.

The new headquarters will be built on 2 plots with total areal of 10,972 m<sup>2</sup>, at Godtfreds Høje 6-8, DK-4000 Roskilde.

The headquarters will have an total area of approximately 1850 m<sup>2</sup> spanning 2 floors with offices, warehouses for spare parts and consumables, workshop, calibration laboratory, test facility with autoclaves, utensil washing machines and freezer dryer, document archive, meeting rooms and other staff-oriented facilities.

The project will be implemented with focus on sustainability, energy-efficient solutions, integration with the surrounding nature, close to the picturesque Lejre valley, and a visually interesting architecture along the establishment of a green and sustainable park around the facility.
